EMERGENCY INFORMATION

SEVERE THUNDERSTORMS

One of the most common natural hazards is the severe thunderstorm. Watch for the conditions that may accompany this disturbance.

HAIL - Large hail can cause serious injury, so avoid the outdoors while a storm is in progress. Protect gardens and shelter vehicles to prevent costly damage.

LIGHTNING - Lightning kills more people in the United States than any other natural hazard. It may strike some miles from the parent cloud.

- Avoid being the highest object in any area. Stay away from hilltops, lone trees or telephone poles. In a forest, move under a thick growth of small trees.
- Do not enter a small structure in an open area.
- If suitable shelter is not available, seek a ravine or valley, and drop to the ground in a crouched position, hands on knees. Do not lie flat.
- Abandon metal equipment (tractors, golf carts, bicycles). Drop golf clubs and remove golf shoes. Keep several yards away from other people.

FLASH FLOODS - Flash floods often occur without warning following upstream, heavy rainfall. Drainage canals, streambeds, canyons, or areas downstream from a dam are potential flood areas. Monitor current weather conditions and make evacuation plans. Roads and trails that parallel existing drainage systems may be swept away by flood waters. When a flash flood warning is issued, or you realize a flash flood is coming, act quickly to save lives. Seconds count!

- Go to high ground immediately.
- Do not drive through already flooded areas. Shallow, swiftly flowing water can sweep a car from the road and disguise a washed out road bed.
- Do not attempt to cross a flowing stream on foot where the water is above your knees.

WINTER STORMS

Severe winter storms with high winds and drifting snow often occur with little warning. Follow these tips:

- Keep posted on weather conditions.
- Prepare for isolation at home.
- Use lights for heat if the furnace goes out. Don't use gas stoves.
- Prevent fire hazards due to overheated wood- or oil-burning stoves, fireplaces, or electric heaters. Fill all liquid fuel heating devices outside buildings.
- Stay indoors. Overexertion such as snow shoveling is a major cause of winter storm deaths.
- Dress in warm layers.
- Travel only if necessary, and then only in daylight on major roads.
- Do not travel alone. Let someone know your schedule and destination.

WHEN CAUGHT IN A VEHICLE:

- Don't leave the vehicle unless help is in sight.
- Ensure proper ventilation while running the engine.
- Signal trouble by raising the hood, tying a cloth on the antenna, or turning on flashers.
- Don't burn anything in the vehicle.

FLOODS

BEFORE A FLOOD

- Know what has occurred on local property during past floods and take appropriate precautions.
- Consult a local licensed insurance agent for the availability of flood insurance through the federally sponsored National Flood Insurance Program. Generally there is a five-day waiting period, so don't wait until a flood is imminent.
- Install check valves in sewer traps to prevent floodwaters from backing up in sewer drains, or buy large corks or stoppers to plug sinks, showers, tubs.
- Obtain sandbags, plastic sheeting, lumber and towels.
- Fuel vehicles in case evacuation becomes necessary.
- Monitor rapidly changing weather conditions.

DURING A FLOOD

- If there is time
- Disconnect all electrical and gas appliances. Shut off the water main to keep contaminated water from the water heater (a source of emergency drinking water.)
- Bring outdoor possessions inside.
- Move valuables and essential items to upper floors.

- Sandbags should be stacked well away from the building to avoid damaging walls. If major flooding is expected, flood the basement with clean water to equalize the water pressure on the outside of basement walls and floors. This is to prevent structural damage.
- Round up pets.

Evacuation

- Use travel routes recommended by local authorities.
- Keep a radio on for news and updates.
- Watch for flooding at bridges, viaducts, and low areas.
- Be alert for thunder and lightning that may signify rain and more flooding ahead.
- Don't drive over flooded roads. It's impossible to tell how deep the water is, or if portions of the roadway have been washed out. Vehicles may be swept away.
- Never try to cross flowing water above your knees.
- All passengers should abandon a stalled vehicle immediately and move as a group to higher ground.

AFTER A FLOOD

- Return home only when authorities say it is safe.
- If there is major structural damage or there are utility breaks, have qualified specialists inspect your home and make repairs before you re-enter.
- Be very careful when inspecting your home on your own for the first time. • Use a flashlight, not a torch or lantern. • Check for gas leaks (Use your nose.)
- Wear rubber-soled shoes and rubber gloves in case of severed electrical lines. • Don't turn on electrical switches • Check electrical circuits only when electricity has been shut off. • Don't use flooded electrical appliances until they have been repaired.
- Don't drink municipal water until the health department has declared it safe.
- Don't rush to pump out a flooded basement. If the water is removed all at once, the walls may cave in because of the sudden pressure change. Pump out about a third of the water a day. Mud is easier to shovel while it is still moist.

TORNADOES

Tornadoes may occur without warning and usually accompany a thunderstorm in the afternoon or early evening. Stay tuned to an emergency broadcast station if thunderstorms are predicted.

PREPARATION

- Keep an emergency stock of tools in the safest place to wait out a tornado. These may include a lantern and a crowbar, pick, shovel, hammer, pliers, and screwdriver for digging out of debris.
- Mobile home owners should have a licensed contractor tie the home down.
- Bring portable furniture, equipment, and pets inside on a day when thunderstorms are expected.

IF A TORNADO WARNING IS ISSUED

A tornado warning means conditions are ripe for tornado formation and one has been sighted. When a tornado warning is issued or you hear the roar of a tornado approaching, follow these guidelines.

In a home

- Stay indoors.
- Immediately go to the lowest level in the building, preferably a basement. Seek out an interior hallway or a small interior room away from windows.
- Crouch under a heavy table, desk or bench.
- If there is no protective furniture, crouch and brace yourself against an interior doorway or corner.

In a Mobile Home

Mobile homes can overturn during a tornado. Do not remain in a mobile home. Go to a community shelter.

In a Store or Office Building

- Don't run for the exit; there may be a stampede. Stay on the same floor. Move away from windows.
- Crouch under a heavy desk, bench, or table.
- Do not use the elevator.

On Foot

- Go inside the nearest sturdy building. If there's no time to enter, crouch next to it.
- If there are no buildings nearby, lie flat in the closest ditch, ravine, or culvert. Cover your head with your hands and arms. Protect yourself from flying debris.

In a Vehicle

- Don't try to outrun a tornado. Leave the vehicle and enter the nearest building, or lie in a ditch, hands covering your head.

NUMERICAL TELEPHONE DIRECTORY BLUE PAGES

This Directory takes the "mystery" out of blind numbers. It lists telephone numbers in numerical sequence, making it easy to "decode" blind phone numbers in classified ads-especially valuable for real estate agencies, used car dealers, etc.

WHAT'S IN A PHONE NUMBER?

ABOUT THE FIRM:

Who called me? When your call back message gives a telephone number only-or includes a common surname such as Jones, Smith, Brown, etc.-this Numerical Telephone Directory will assist in determining correct firm name and address. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:

Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the full name and address of the subscriber-with this information combined with other sections of your City Directory, you may quickly establish such information, as wife's name, place of employment, job title, business address and business telephone number.

[illegible]This image shows a single sheet of white paper with horizontal blue ruling lines. The lines are evenly spaced and run across the width of the page. There is a vertical margin line on the left side, creating a narrow left margin. The paper appears to be a standard notebook or legal pad style.
